

**PL300LRGB
VERSE**

Verse is a laser beam phosphor RGB Full color IP66 Outdoor. New Version upgraded of the VERSE, an innovation in the professional lighting sector with control DMX, Artnet, sacn and wireless DMX by LumenRadio.

Strong light effect and penetration, long distance, high brightness. High-strength aviation magnesium alloy, high resistance, light weight, long life using.

Strong compatibility – Intelligent operating systems can be perfectly compatible with market control systems. High stability – patented heat dissipation technology combined with electronic temperature control ensures longevity and stability. Light weight 28,6 Kg. A great choice for entertainment and big events.

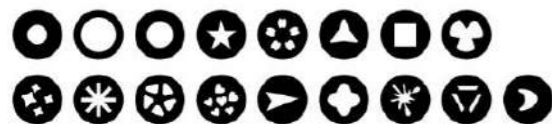

Key features:

- Tri-phosphor RGB laser source power supply 300W(*)
- 0.50° angle
- Sky Survey Beam Light
- Electric linear focusing
- 280000lux@30
- High-strength aviation magnesium alloy, IP66
- 0~100%, smooth dimming without flicker
- Independent strobe, adjustable from 0.5 to 20 times/second
- DMX, Artnet, sacn and wireless DMX by LumenRadio.

Application:

- Monument
- Building
- Entertainment

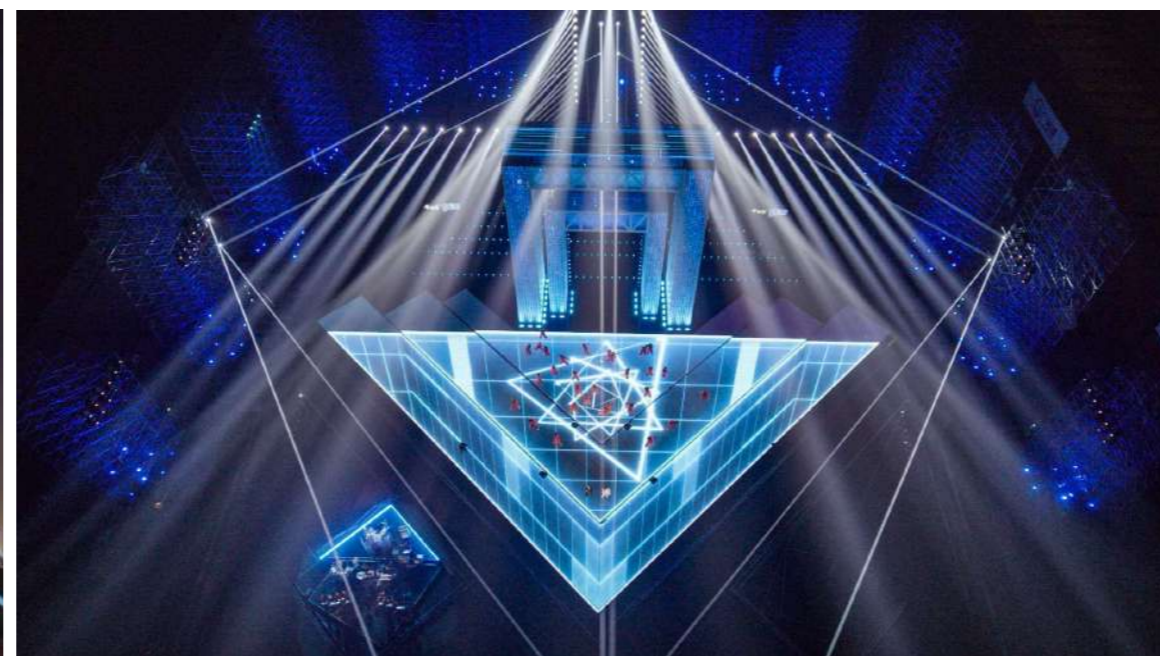

Gobo

Parameters

LED Source	3-phosphor RGB laser 300W(*)	Size and weight:	75×40×34cm 28.6kg
Light Angle	0.50°	N.W.	90-240V 50/60hz
Color T°.	7000K (adjustable) RGB	Installation	Formal, inverted, and side mounted
Illumination	280000lux@30mt	Housing color	Black
Power Cons.	420W	Connection	5 pin dmx Powercontrue in/out
Adjustment	Horizontal 540 ° vertical 270 °	Ip rating	IP66
Optical Lens	light outlet 200mm	T°Operativity	-45°C~50°C
Control	RDM,DMX, 21CH, Artnet, sacn wireless DMX by LumenRadio.	Cooling	Fan cooling structure; tempertature intelligent monitoring,safety protection
Functions	Fixed Gobo, Prisms, Frst, 0~100%, smooth dimming without flicker, Independent strobe, adjustable from 0.5 to 20 times/second , Electric linear focusing	Appearance:	High-strength aviation magnesium alloy, high temperature resistance, fire and aging resistance, wear resistance, light weight and fall resistance, all black Clamp included in the light.

(*) based to power consumption the optical power is 60w
